### PRIZE WINNING ESSAY

**RUPERT A. BELT HAS BEST STORY.**

Our farm contains 335 acres of land of which 25 acres are in woods, 175 in pasture, 85 in meadow and 50 in corn.

Our farm has some hills but part of it is level and it is divided into seven fields and few small lots.

We have 100 hogs, 30 head of cattle, 2 mules and 8 horses. We do not raise sheep or goats as other stock will not thrive with them.

Our fence is partly woven wire and part rail fence. We do not use picket fence as it is not satisfactory.

The reason I desire to remain on the farm is that we can get plenty of fresh air and enjoy the benefits of health.

We have fresh eggs, fresh milk and butter and all kinds of fresh vegetables.

Farming is the most independent occupation a man can have. You have the privilege of being your boss and going where you please and doing as you please.

I believe if the soil was limed it would bring in greater financial returns.

A manure spreader is a great help to the farmer. It spreads the manure more evenly than it can possibly be done by hand.

Silos are a great help to dairymen as the ensilage makes the cows produce a greater amount of milk and richer cream; then a

### TO REDUCE FIRE DANGER.

**GOV. McCREARY ISSUES PROCLAMATION.**

October 8 has been officially designated as a clean-up day in Kentucky for the purpose of reducing fire dangers.

If this day were religiously observed throughout the Commonwealth there would be fewer fires to record within the next twelve months to come. The general removal of rubbish in and about business houses, factories, residences and other places would amount to a big reduction in fire hazard. The putting in order of houses and premises in advance of winter would save many losses that are sure to come otherwise through defective flues, stoves and other heating arrangements and through the neglect of these precautions, which, while simple and easily practical, are of much importance to personal and general welfare.

Some years ago the people of the United States became aware of the fact that Fourth of July celebrations of the boisterous, powder burning sort, were causing a heavy annual loss in life and property. The injudicious use of fireworks resulted in many deaths and serious injuries and in the destruction or damage of

#### NO REASON FOR IT

##### You Are Shown A Way Out.

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the word of a resident of this locality who has found relief. The following is convincing proof.

F. L. Stewart, Princeton, Ky., says: "We still use Dean's Kidney Pills in our family and consider them an excellent remedy for kidney disease. They have never failed to give me great relief whenever we have taken them. The statement given by a member of my family some years ago was true. I am glad to again publicly recommend this preparation."

"When Your Back is Lame—Remember the Name." Don't simply ask for a kidney remedy ask distinctly for Dean's Kidney Pills—the same that Mr. Stewart had. See all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

#### CROSS ROADS

(Delayed from last week.)

Your Cross Road correspondent was in Salem a few days since and met Judge C. R. Stevens and Col. G. H. Rappolee and called their attention to the New Salem items in the Record-Press concerning "Old Wind Bag." Your correspondent talked to Judge Stevens about plowing corn with old "Ball." He remembered quite well, the day referred to by New Salem correspondent, as that was the first time he had met Maj. Harpending and his two pals, Thos. Nickels and Mr. Jesse Dooley. They came to the field where the Judge was plowing corn with old "Ball," on Wednesday the 3rd day of July, 1889, the season being a little late. The Maj. told the Judge that he and his friends were in search of roots and herbs, such as Snake Root, Ginseng, etc., and after showing the Judge their formulas and explaining to him the wonderful curative qualities of Snake Root Pills, Ginseng Syrup and Featherington's Salve, they persuaded the Judge to join them in their search of the roots and herbs, and built an immense laboratory for compounding their celebrated family remedies, the Judge to have one fourth interest in the Company. The Judge, then and there, abandoned his promising crop of corn, pulled the handle off of old "Ball," when he did very reluctantly, and buried himself in the forests with his newly made friends and partners in business in search of nature's own remedies for the cure of lumbago, bald-head and appendicitis. The Judge says that he was swindled out of his interest in the aforesaid business, lost his likely crop, and had to buy corn the next season. The Judge well remembers that celebrated game of "seven-up" played between himself, the Major, Thos. Nickels and Mr. Jesse Dooley, on Friday the 17th day of July, 1889, which took place just fourteen days after he had met the Maj. and his pals. When the Judge saw this part of the New Salem items, there was a merry twinkle in his eyes, his mind wonderfully clear and vivid on this subject. He says that this game commenced about 9 a. m., and closed about 6 p. m. He says that when the game closed that he stood 20 cents to the good. The Major's two pals did fairly, but the Major lost all of his money. The

barlow knife, pocketbook and bandana handkerchief and all he saved was the formulas for his celebrated family remedies and a small box of Featherington's Salve. Judge Stevens and Col. Rappolee say that it is true that Maj. Harpending came to them with his ginseng syrup, which he assured them was compounded under the Pure Food and Drug Act and prevailed upon them to try it for lumbago and bald-head and these two worthy gentlemen took the Major's remedy according to the Major's personal direction, at the same time the Major complained of symptoms of appendicitis and he began to take his own remedy which he said was a sure cure for lumbago, bald-head and appendicitis. After rubbing freely of Ginseng Syrup the Major took a dose of Snake Root Pills, accounting himself with Featherington's Salve, left his nag hitched behind Faris' drug store and started in the direction of home. The next morning he was found in the Alvicow only where he had spent the greater part of the night before. When Judge Stevens got home the chickens were crowing for day. Col. Rappolee fell asleep in his chair, where he remained until the next sunrise. These are splendid remedies.

WHICH SHALL IT BE?

Do you intend to continue laboring, burning valuable fuel and destroying high priced food with that old worn-out cook stove?

You know that old stove eats up a lot of fuel each year.

You know you have trouble in getting it to bake just right, in fact spoil a batch of bread every once in a while—you know it costs considerable for yearly repairs.

Stop and think and figure.

Wouldn't it pay you to buy a good range a range with a reputation—

The Great Majestic Malleable and Charcoal Iron Range?

You make no mistake in buying the GREAT MAJESTIC—it's the range with the REPUTATION—ask your neighbors. Then too, it's made just right and of the right kind of material—MALLEABLE AND CHARCOAL IRON—riveted together practically air tight—lined with pure asbestos board—parts being malleable can't break—has a movable reservoir and an oven that won't warp—that's why the Majestic uses so little fuel, bakes just right every day in the yr. (browns bread just right all over without turning) heats 15 gallons of water, while breakfast is cooking properly handled lasts a life time, and costs practically nothing for repairs.

Don't buy the range you expect to last a lifetime "unsight unseen," you'll be sure to be disappointed. Come to our store during demonstration week, see the GREAT MAJESTIC—have its many exclusive features explained—find out why the MAJESTIC is 300 percent stronger than other ranges where most ranges are weakest.

### General Business Outlook.

Conditions in the business and industrial world are decidedly brighter than they were, and leading interests all over the country entertain most hopeful expectations for a betterment of business generally. The

greatest crops in the history of the United States are promised as per latest official reports, and with such an outlook we ought to be on the threshold of country-wide prosperity. As a nation we have the natural resources, the markets and the financial ability to conduct great enterprises, and with a wonderful array of favorable factors there are good reasons to expect business will soon reach record proportions. Railroad earnings are increasing, the steel and iron business is progressing in fine style and floor spar demand has risen to a high level. All things considered the country is in an excellent shape to get under full swing once more. Of course a presidential campaign is on and politics and tariff talk will be factors of more or less moment for some time. But business is bound to push along in a way that will eventually be unparalleled in the history of the country.

### Root's Conscience.

Senator Elihu Root, of New York, presided at the convention which re-nominated Taft for president and controlled and directed the forces accomplishing it and it was he who was dominant in the fight against Roosevelt. What sincerity is his? What must be in the man's heart of hearts? Here is his declaration as made in 1904 in an address before the Union League Club of New York:

"I count it my friends, as one of the greatest privileges of my life to have been able in that day of great sorrow, when our lamented President McKinley was carried away, to have been able to stand by and hold up the hands of his true and loyal successor, Theodore Roosevelt. Men say he is not safe. He is not safe for the men who wish to prosecute selfish schemes for the public detriment, but I say to you that he has been these years since President McKinley's death the greatest conservative force for the protection of property and our institutions in the city of Washington. I would rather have my boys taught to admire the finest thing in our life—the honesty and frankness, the truth and loyalty, the honor and devotion of Theodore Roosevelt, than to have all the wealth of this great metropolis. The work of President Roosevelt has more meant for good in this land than any other score, or all of his department heads."

### A Man of Men.

Measured in every way and judged by every standard, Governor Wilson completely fills the bill of a man who should occupy the high office of President of the greatest nation on earth. Capable, scholarly, courageous, safe and patriotic, he will make an ideal President whose single aim will be to obey the constitution and do the greatest good for the greatest number. His majority should be so large that it will serve lasting notice to the interests that this is the government of the people by the people, and not of the people by the trusts.

## IF A WATCH OF OURS GOES WRONG

We make it right for you or we make it right with you.

Which means that you cannot possibly be a loser.

No, we don't take any great chance by offering to do that.

Because our watches are watch certainties.

They have reputation behind them and they aren't likely to start now to disappoint.

But if one should, as we said, we agree to be the loser.

What better assurance could you have than that?

### Governor Marshall.

It was real inspiration that caused the Baltimore Convention to place Governor Thomas R. Marshall on the ticket with Governor Wilson. As Governor of Indiana he has demonstrated his capacity and his public expressions before and after the nomination stamp him as a man that should be honored and trusted. The Governor is a firm believer that any system of government which enables one man to take advantage of another is not a system under which a Democratic condition of life can thrive, and his life time effort has been for a reformed government.

## THIS PROPHET IS HONORED AT HOME.

Trenton, N. J., Oct. 2.—Today returns from the state-wide primary in New Jersey shows overwhelming defeat for James Smith Jr. in the Democratic primary contest for United States Senator, and victory for Governor Wilson's choice, ex-Congressman Hughes.

The forces behind Wilson rolled up more than 20,000 plurality. Essex county supported Smith by about three to one, but the remaining twenty counties went for Hughes.

Hughes ran about seven to one against Smith in Monroe, five to one in Mercer and about three to one in Hudson. Smith received about 23,000 and Hughes about 10,000.

## GEN. U. S. GRANT'S SON IS FOR WILSON.

New York, Oct. 2.—Jesse R. Grant was appointed a member of the finance committee of the New York Democratic state committee today. Julian A. Beatty, was appointed secretary.

Mr. Grant, who is a son of President Grant, is one of the most enthusiastic supporters of Governor Wilson.

"I am going to do all in my power to bring around the election of Governor Wilson," said Mr. Grant. "I know of no one better equipped to grace the White House than Governor Wilson. His views on the tariff are appealing to the substantial and sensible business men of the country."

I think he is going to receive the greatest number of Republican votes ever given to a Democratic candidate for office. He is not only going to draw from Roosevelt's following (and this may sound like a remarkable statement, but I believe it is true) but he is also going to decrease the ranks of the old line Republicans until they will present on election day a mighty weak and battered line.

"If Governor Wilson is to lose any Democratic votes I have yet to hear of the fact. The independent voter is in favor of him in view of all this I do not see the slightest chance for any of the other candidates to give him a close race."

"The time has come when we are going to gain ground every day, rather than lose. My reason for stating this is that the people are becoming better acquainted with him and with the meaning of the earnestness of the man and his belief in citizenship and his marvelous personality. I would not be able to predict what will be the fate of the Republican party after this election but I am convinced that it will never be swallowed up by the folly."

## TO REDUCE FIRE DANGER.

(Continued from Page One)

many buildings by fire. A movement was begun for a "safe and sane Fourth" and it has progressed to such a degree that the yearly death toll and damage bills in American cities have been cut down to a mere fraction of what they were in former years. This result indicates the possibility for good that men concerted effort. The people are just beginning to realize the enormity of the fire waste in the United States. When they are thoroughly aroused to action they will take steps to reduce it.

Last year the people of Kentucky paid out more than five and a quarter millions for fire insurance and the companies paid out more than three and a half millions in losses. This of course takes no account of the immense amount of property destroyed on which there was not a dollar of insurance. Fire losses in the country at large amount to more than \$200,000,000 a year, and a big percentage of this heavy bill is due to the negligence of the people who fail to take the proper precautions against fire. It is easy to save much property and to avoid distress by timely diligence in eliminating hazards, and every day should be signed up for some effective work of this kind.

This is especially true of our State in respect to the health of our people.

We need addressers everywhere to have their own personal direction of calling attention to the importance of this work. The people are just beginning to realize the enormity of the fire waste in the United States. When they are thoroughly aroused to action they will take steps to reduce it.

LOST IN A CAVE.

FRIGHTFUL EXPERIENCE OF FOUR BOYS.

Last Saturday afternoon, Presley Henry, son of James Henry, George Dollar, son of Gilly Dollar, Milton McAdams, son of Mrs. Lawson McAdams, and Gleaford Rankin, son of T. A. Rankin all of Marion had an experience which they will not soon forget. The boys were gathering walnuts on the Wilson hill farm and concluded to explore a cave which penetrates the bluff. They took the precaution to take a candle, some matches and a long string which they tied securely to a tree before descending into the depths of Crittenden county's miniature "Mammoth Cave." This was in the early afternoon. They had not gone far until they lost their way and to make matters worse the candle went out, the string broke and the match supply was found to be short. They groped around some time looking for the exit and finally began to yell for help. Harry Moore, son of John A. Moore, who was one of the nutting party did not venture into the cavern, heard their cries and hurried to the city and gave the alarm. After considerable delay the parents were found and went to the entrance accompanied by a large crowd. Lawrence Robinson was one of the most diligent friends to the entrapped boys. Wylos McCain, colored, was considerably excited as he was at first told that his son Howard was enroute to China through the bowels of the earth. The boys were rescued after being entombed four and one half hours and all were in tears when brought to the surface of mother earth just after dark. Presley Henry embraced Lawrence Robinson and told him he never looked so good to him in all his life. It is said some of the other boys and their parents had quite affecting meetings in the back yards when they reached their

Be Merciful to Thy Brother.

John J. Crittenden, the eloquent Kentucky lawyer, of a past generation, was once defending a murderer. Every one knew that the man was guilty. A great crowd assembled to attend the trial and to listen to the speeches of the many able lawyers engaged on both sides of the case. When Crittenden arose to defend the prisoner silence prevailed in the court room. Everyone was eager to hear what the distinguished Kentuckian had to say. After an able argument in behalf of his client, Mr. Crittenden ended his eloquent plea in the following beautiful words:

"When God conceived the thought of man's creation, He called to him three ministering angels, who wait constantly upon the throne—Justice, Truth and Mercy—and thus addressed them:

"Saill we make this man?" "O God, make him not," said Justice, sternly. "For he will surely trample upon Thy laws."

"And Truth, what sayest thou?" "O God, make him not, for he will surely sin against Thee."

"And Mercy, what sayest thou?"

Then Mercy, dropping upon her knees, and looking up through her tears, exclaimed:

"O God! make him; I will watch over him with my care through all the dark paths he may have to tread."

Then, Brothers, God made man and said to him: 'O, man thou art the child of Mercy; go and deal mercifully.'

The man was cleared.—Richard Climax.

Thieves Carry Away an Eight-Room House

At midnight, Sept. 20, the police and fire departments of the town of Chicago, Ill., were called to keep a sharp lookout for an eight-room house that has been stolen. The house was the property of Mrs. Frank Edwards. It stood at Fourth avenue north and Fourth street.

One day Mrs. Edwards got a notice from the health department to clean up the property. She sent her husband, a real estate man, to investigate. The lot needed cleaning. The house had been moved away and a litter of material was left on the grounds. The police admit the case has them puzzled.
